

ALMASI CHILDREN VILLAGE
Isiolo Community Home for Children with Disabilities

Registration Number: 358

Name : FARDOSA Wario Jilo

Age : 12 years old - 2001

Residence : Isiolo – Tula Roba

Diagnoses : Mentally handicapped; muscles and mouth weak (drivel).

Indication : Occupational therapy, Special education, Speech therapy

FARDOSA is the last born in a family of 6 children. Her mother Hadija (55) is widow and has no regular income. She lives in a timber house with pipe water and a pit latrine on the premises.

FARDOSA went to Ramadan Primary School for 5 years but did not learn much. Her intellectual level is not beyond nursery school: she can write ciphers and letters but does not know what the meaning is. She cannot count.

She had no severe diseases.

At home FARDOSA is very INactive: she sits all the time idle in a corner of the house. Her senso-motoric is very weak although she can use all muscles.

Provisional Rehabilitation Plan:

FARDOSA needs occupational therapy to stimulate her senso-motoric development. She will attend Special Education to teach her some basic knowledge.

The mother gets counseling and home assignments to keep Fardosa busy at home.

At the long term we want FARDOSA to attend the Vocational Training Department. We will see what her preferences are to develop some professional skills. (Tailoring?)

P.S. To avoid misunderstandings (some children have the same name) please ALWAYS use the Registration Number when you contact us.
